

DRYSEAL

PRODUCT OVERVIEW

HATCH SEALING TAPE

DrySeal Hatch Sealing Tape

DrySeal by Soprema is a adhesive “winter grade” hatch sealing tape manufactured in Canada from SBS Modified Bitumen, that is water resistant, elastomeric, and durable with cutting edge technology. It is the premium solution for waterproofing ship’s hatch covers and ensuring that valuable cargoes arrive damage free at unloading.

Specifications

- Winter grade hatch cover tape in rolls
- High tack SBS modified bitumen with a polyethylene cover
- Modern elastomeric modification process creates ultimate flexibility
- Performs well in extreme high and low temperatures (-45 to 90°C)

DrySeal Hatch Sealing Tape
